

Barden Family Orchard understands that there are health and safety concerns for some individuals

Patron distancing and mask requirements as dictated by the State of Rhode Island and the US Centers for Disease Control will be implemented

- If you are feeling ill, have a fever, sudden onset of shortness of breath and muscle fatigue, have lost sense of taste and smell or have other common symptoms of the flu, please choose another time to visit our farm when you are feeling healthy and without these symptoms.
- There will be a dedicated time period from 8am-9am on Tuesday mornings prior to our normal opening time for our customers age 60+ and those needing special assistance.
- Masks are required when approaching within 6 feet of another customer anywhere on the farm.
- All patrons are required to wear a mask when entering our Farm Market unless there is a limitation by age or health condition.
- Please remain at least 6 feet away from those not in your group.
- The farm has set up customer service stations six feet apart to ensure that customer lines maintain physical distance.
- Please send only 1 person into our Market or up to the Apple Shed window to purchase bags and other items. We have limited space in our small market.
- While out in the orchard we ask that groups remain together as you are picking so as to allow other groups more opportunity to easily walk through the orchard to pick. Please walk to the opposite end of the row from where you entered, to exit that row if others are waiting to enter.
- We ask that children remain with their group and be within reach of an adult at all times.
- Hand washing / sanitizing is required before entering the orchard. There is a hand washing station that we ask each person to use before entering the field.
- Please only touch fruit on the trees and in the store and that you intend to pick and purchase.
